Yellow Dog's Commitment to YOU!

Foremost in our mind at Yellow Dog is meeting our commitments to you. Our experience and capabilities enable us to provide you with total solutions... whether it is a particularly large order, an unusual shape, a tight deadline or any combination of requirements, you can be confident that Yellow Dog will always meet your needs.

Weather Resistant Coatings

At Yellow Dog we have full in-house capabilities to anodize and powder coat your shapes. In addition to adding visual appeal these protective coatings provide a much more durable product resulting in lower 'warranty repair' work and ultimately greater customer satisfaction!

Quality Control

When it comes to Quality Control, you can count on Yellow Dog to be your best friend.

Aluminum Extrusion

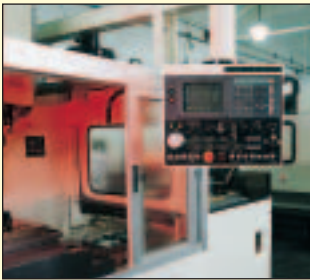

And Roll Formed Products

Specializing in Standard and Custom Shapes

We prefer to be problem preventors as compared to problem solvers. Better quality products from Yellow Dog results in lower scrap for you, helping to reduce your overall costs.

Complete Fabrication Capabilities

- Sawing
- CNC
- Machining
- Punching
- Notching
- Perforating
- Drilling
- Tapping
- Welding

QC starts with working only with the best materials, at Yellow Dog we use only certified (serialized) aluminum stock. Your shapes undergo rigorous quality inspections. Our in-house lab performs visual measurements utilizing optical and photo optical mechanisms.

SNAP FIT Extrusions

Our skilled team of engineers are experts at helping you design a better product. Our expertise includes designing "Snap Fit Extrusions". These products simplify and increase your productivity by snap fitting and locking together thus reducing your assembly and manufacturing time. They also help to provide a better end product by eliminating bowing and rattles. Ask us how!
